Product short description:

Simply put, this is the best lamp wire in the world. It is the softest and most flexible cable covered with the highest quality fabrics you can buy. And **ALL** of our cloth covered electrical wire is made in our family-owned Italian factory by artisans who take pride in their work and have been working with fabric braiding for decades.

The subtle sheen rendered by the Italian rayon fabric we use to wrap our White Glitter (RL01) color cord in gives them a hint of glamor and modern appeal.

Our rayon covered cloth electric wire is wrapped with woven rayon fabric to protect the cord's integrity and enhance its durability. Our fabric cables do a great job of maintaining their flexibility and withstanding regular wear.

All of our cloth covered lamp wire color cord is available for sale by "By the Foot", so order as much or as little as you need.

Inside our cables are three individually PVC wrapped copper wires (positive, negative and ground) that are double insulated by another flexible PVC housing and then covered in our premium fabric. Our wire is fully (SVT-B) UL Listed. All of our wires are rated for 300V and can carry a weight load of 7.7 pounds.

Remember to always consult a licensed electrician if you have questions.

IMPORTANT: Due to UL safety standards, cut-to-order wire is non-returnable. Only full, unopened 150' spools may be returned. Please verify your selection before purchasing.

UL Listed: E496739

Product description:

How to choose the best cloth covered wire lamp cord: our fabric cables come in many different colors, fabrics and finishes, and we're always adding cool new styles and designs.

Here's how to choose the right fabric to accomplish the design goals you're hoping to achieve: For a modern look you should check out our rayon covered wire, glitter covered wire or our metallic covered cables. For that retro vintage or traditional look our premium Italian linen cloth covered wire and cotton fabric covered wire are second to none.

And if you are looking to achieve a rustic look or want that farmhouse style look to your lighting then definitely check out our jute covered wire. You are the designer, but we are always here to help. Feel free to reach out and contact us if you have any questions about what cloth covered

wire or fabric cable would work best for your DIY pendant lighting project!

No matter which fabric cable you choose, you will receive the absolute highest quality fabric lamp wire available. And remember all of our cloth covered wire is 100% made in Italy in our factory just outside of Torino.
