Product short description:

A chandelier designed for lovers of **industrial style and naked lampshades**.

This pendant lamp is ideal to give a unique touch to any interior: the metal finishes are perfect to help you play with different materials in a perfectly factory-inspired style, while thanks to the wide and very light shape of the XL Dome cage lampshade, which leaves the light bulb in plain sight, you can **illuminate even those rooms where natural light is hardest to reach**.

We recommend you use this ceiling lamp to light your dining table or to complete your New York loft-inspired living room.

This chandelier is ready to be installed by expert hands and you can buy it already **complete with bulb**: we have chosen for you the Globe G95 transparent light bulb with long filament, but alternatively you can take a look at our assortment of LED design bulbs to find the one that best suits your style.

Product description:

Hanging lamp composed of:

120 cm of cable 2x0.75 of the selected color

1 metal canopy of the selected finish

1 metal cage XL Dome lampshade of the selected finish ø 350 mm H 240 mm complete with socket E26

Light bulb [DG-G95-CLEAR]: LED, G95, 5,5W, 250 Lm, 2200K, E26, width 95 mm, dimmable

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.

Product features:

Material: Metal
Lampshade: Yes
Mood: Industrial
