Decentralizer, fabric cable wooden ceiling or wall “V” hook

Product attributes:

Finish: Neutral, Wenge effect

Product image:

Product price:

\$4.00 tax included

Product short description:

The wall decentralizer with wooden 'V' hook allows you to fix our fabric covered electrical cables to the wall or ceiling.

This decentralizer is the perfect accessory for drawing curves or straight horizontal or vertical lines and allows the cables of a single or multiple pendant lamp to be attached to the ceiling or wall in a variable manner.

Wood, crafted in Italy, is a material that can evoke many styles of interior design, from Scandinavian to shabby, or even country and nautical styles. The brighter, natural wood finishing will suit those who prefer a more rustic effect, while the darker, wenge-effect finishing is perfect for more elegant environments.

Suitable for cables up to 8mm in cross-section and is fully compatible with all our fabric covered lighting cables.

Package includes screw and wall plug.

Warning! This product is not suitable for large cross-section cables or nautical cords.

Product description:
